Subject: Highland AOC
Attachments: Appendix A and B to the Final AOC.pdf; 9.11.17 EPA's Final AOC sent to Highland.pdf

Jessie and Ethan- I have attached the Administrative Order on Consent, including Appendices A and B (AOC) for the removal action that Highland Industries will conduct at the Burlington Industries Site. Unfortunately, the Region 4 office is closed again today due to the storm, so I am unable to get a docket number. I can provide you with a new first page with a docket number as soon as the office is reopened. Also, I have not attached Appendix C because I am waiting for the OSC, Matt Huyser, to provide me with the excavation information for the last two parcels on Appendix C, which right now are noted as "not started." The OSC had not finished the fund-lead work on those properties when we provided you with Appendix C. The excavation area for those two parcels will be similar to the descriptions you have already seen.

I understand that it may take you up to a week to obtain a signature page from your client due to the location of Highland's parent company. We ask that while we are finalizing Appendix C and preparing to have the Action Memorandum signed that your client sign the signature page and that you send us an electronic copy or the original of the signature page. We need to be able to tell management that the company has signed the signature page when we brief management on the Action Memorandum and ask management to sign the AOC. Would you please let me know when you expect your client will sign the signature page?

Once the Action Memorandum briefing has occurred, we will insert the date on pages 4 and 10 of the AOC and provide you with those pages to replace the ones you are receiving today and provide you with the EPA's signature page.

I will know much better about the timing of the Action Memorandum briefing and status of Appendix C when the office is reopened. We will keep you updated on the timing as I know that we are all eager for the removal action to get started.

Thank you.
Teresa

Thank you.
Teresa
